

## Specifications

### Aluminum

All aluminum components are smooth finish high strength alloy 6063-T6 extrusions unless otherwise noted. Aluminum feedstock contains **recycled aluminum**. Alulite® products are **recyclable**.

### Table Tops

All top surfaces are .080" thick with integral stiffener ribs and have 1½" profile edge. End caps are heavy gauge and have high impact cast corner inserts which will absorb abuse from frequent setup and take down. Table tops are constructed of individual boards bolted together and have longitudinal seams. Table tops will not crack or warp after extended usage or exposure to heat, moisture or sunlight. Tables have permanent scratch-resistant stacking bumpers attached to the legs to prevent damage when stacking. Table corners will withstand a drop squarely on edges/corners from a height of 24" at any temperature without splitting apart, cracking, or creating sharp corners. Tables will not emit toxic fumes, gases or smoke in high temperatures related to a fire (passes California Fire Code 133). Tops are available in silver anodized finish or in selected powder-coat paint colors. [view colors at [www.southernaluminum.com](http://www.southernaluminum.com)] Alulite™ products have a **Lifetime Guarantee – for as long as you own them!**

### Rectangle & Square Table Tops

End caps are heavy gauge aluminum which will take abuse from frequent set-up and take down. Table tops are constructed of individual boards bolted together and have longitudinal seams.

### Round Table Tops

Table perimeter utilizes an aluminum anodized band capable of withstanding frequent usage.

### Load Capacity

All table tops will support up to 4,000 lbs. of distributed weight. All aluminum leg styles are tested to exceed 2,000 lbs. of direct weight on each leg.

### Folding Legs

All legs are aluminum and welded together for strength, then attached to the table with zinc-plated bolts and nuts. Legs will never rust. Powder-coat paint in Mineral Bronze color is applied for finishing.

### Wishbone Leg Style

Wishbone folding legs are 16 gauge heat-treated aluminum 1¼" diameter shaped into the wishbone pattern for maximum leg room.

### H & Roman II Leg Style

The H and Roman II folding legs are 1½" square aluminum with .065" wall thickness for additional strength.

### Individual Folding Leg Style

The individual folding legs are 1½" square aluminum with .065" wall thickness. These legs are standard on the study tables and card tables.

### Adjustable H Leg Style

The adjustable H folding legs are 1 1/2" square aluminum with .065" wall thickness. These legs are standard on the Alulite™ children's table and are optional on other models. Each leg adjusts in 1" increments from 16" to 24" on the children's table and from 24.5" to 34.5" on other models.

### Standard Pedestal Base

Spider leg top and bottom are cast iron and are connected via a steel thru-bolt with nut encased in a 4" diameter steel tube. Bottom comes with adjustable nylon glides. Pedestal is available in 29¾" or 42" height. Available in black.

### Sizes
