

Pilot™ XL Task Chair

FEATURES AND BENEFITS

“What is the Pilot XL Chair?”

Pilot XL is a tough, sturdy and comfortable chair used when one size fits many is required.

This heavy-duty, oversized executive chair provides style and ergonomic support for the big and tall person. The chair width (24") adds additional benefit for the active user who carries holsters, work belts, etc.

Pilot XL exceeds all applicable ANSI/BIFMA test standards for extra wide chairs.

The entire Pilot family of seating is warranted to accommodate weight up to 400 pounds, 24 hours a day, 7 days a week for 10 years! That's a strong warranty!

Several arm styles are available to assist in sizing, comfort and appearance.

Back angle adjustment allows user to reach back and set the seat to back angle at the desired position.

Heavy-duty, multi-function synchronous mechanism (1.1 ratio) offers the user a free-float or infinite lock function. User can choose between a locked or recline option.

Heavy-duty gas lift adds to reliability.

Extra-wide, 27" composite base aids in support and overall strength of the chair.

Ratcheting back height adjustment mechanism is easily adjusted from a seated position. Simply grasp back and raise or lower the lumbar support to desired position.

The chair back has a built-in lumbar design.

Arm pads have comfortable ergonomic design and soft urethane pads.

Enhanced, extra-thick contoured foam with waterfall seat edge offers extra wide seat and back width of 24".

Easy-to-reach from seated position, the seat slide adjustment allows user to set seat depth to optimize comfort.

Tilt tension adjusts free-float operation to the specific user's needs.

Heavy-duty 65mm dual wheel high impact casters.
